Billet trim. Face size  
2" x 4.25"

**TOTALLY COOLed GALLERY**

Todd Ryden, from MSD Ignition wanted something a little different for a daily driver so he built this neat '65 "GTO" wagon. It runs a 472 c.i. Pontiac with tri-power and a Tremec 5-speed. Todd keeps that roomy interior frosty inside on those hot El Paso summer days with a complete Vintage Air Gen-II custom fit climate control system.
