

1955-56 Chevy installation with center plenum.

1957 Chevy installation with center plenum.

Note: Our re-engineered Tri-five Chevy Sure Fit kits now include Tite Fit compressor hard lines. Lines are now rerouted through core support and drier mounts behind. These kits may be upgraded to include our polished Tite Fit line kit and our popular polished Proline compressor/alternator bracket (see page 68).

Vintage Air offers a new direct replacement radiator for your classic Chevy. We also recommend using our heavy duty fan blade and shroud.

- 37155-VCF** 1955-57 Chevrolet Fan Shroud V8
- 32057-VCF** 1955-57 Chevrolet Fan Shroud V8 with core support in 6cyl. position
- 37555-ACR** 1955-57 Chevrolet Fan Shroud V8 with radiator moved to 6 cyl. position

492055 - 55-57 Chevy ProLine Aluminum Louver Bezel Fits Standard Round Louvers and Most ProLine Round Louvers.

1955-57 Chevy Monster Fan & Shroud Kit
(NOTE: Designed for 6 cylinder core support)

- 370256-VCA** Monster Fan Kit with shroud and standard brackets
- 370257-VCA** Monster Fan Kit with shroud and chrome brackets

Notes:

1. Monster Fan Kit includes fan wiring harness and adjustable thermostat.
2. Radiator core support must be in forward 6cyl position.
3. All electric fans require a trinary safety switch.

370255-VAC Shroud only with brackets

INDUSTRY INVOLVEMENT

One of the greatest things about traveling to as many shows as we do each year is the opportunity to personally meet our customers. By displaying our products and discussing the experiences and ideas of our customers we can make our product better. And sometimes we actually get to go out and see some cars!
