

GEN IV

The all new Vintage Air Gen-IV Sure Fit Camaro/Firebird air conditioning, heating and defrost systems are a major step forward in performance aftermarket climate control systems. The Gen-IV systems feature all electronic controls requiring no cables, capillary tube or vacuum connections. They are truly "fly-by-wire".

These Gen-IV systems use separate heating and cooling coils for superior performance. The internal air control doors are servo operated to provide infinite dash, floor and defrost blending.

Our exclusive Electronic Cable Converters™ easily replace your stock cables to convert your stock control panel to the Gen-IV technology.

Complete kit includes: Evaporator, condenser, drier, compressor, compressor bracket, hose kit and hi/lo safety switch.

The All-In-One Kits For Your Classic Camaro!

EVAPORATOR KIT: Air conditioning, heating and defrost combination designed specifically for your vehicle. In 1967-1969 models the original deluxe control assembly in your dash connects to our new electronic cable-replacement modules to retain the factory look of your dash. In 1970-78 models we include a new OEM look control panel which mounts in place of your original panel. Evaporator kit comes complete with all mounting brackets, hardware, louvers, duct hose, wiring harness and installation instructions. Sure Fit kits are designed to install with minimal drilling and no fabrication required.

COMPLETE KIT: All above plus underhood kit including the condenser and drier package. Attaches to existing radiator mounting holes. No fabrication required. Comes complete with SuperFlow™ condenser, mounting brackets, standard drier, safety switch, pre-formed aluminum lines, firewall cover plate and all mounting hardware.

NOTE: Some installations may require additional engine pulleys not included with kits. See page 64 for options. You must provide v-belts and refrigerant.

Optional Replacement Louvers For 1967-69 Camaros

49306-VCL 1967-68 outside Astro vent. (pair)

493067-LCA 1967-68 Factory Air repro center vent. Includes single 2.5" hose adapter

49308-VCL 1969 Factory Air repro center vent.

We recommend using our heavy duty fan blade and shroud.
