

Vintage Air Sure Fit air conditioning, heating and defrost systems for classic Chevy trucks are designed specifically for each application. We match the coil and blower to give you the maximum amount of comfort in your truck. Factory deluxe controls are used.

1955-59 Chevy Truck Sure Fit™ System Features

- Mounts completely behind dash
- A/C exits at dash.
- Floor exit heat.
- Dehumidified defrost.

Complete kit includes: Evaporator, condenser, drier, compressor, compressor bracket, hose kit and hi/lo safety switch.

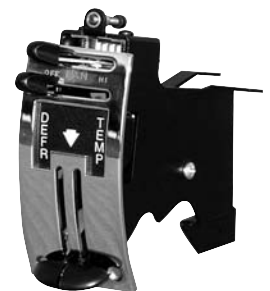

The All-In-One Kit For Your Classic Chevy Truck!

EVAPORATOR KIT: Air conditioning, heating and defrost combination designed specifically for your vehicle. Original deluxe control assembly in your dash connects to and controls this unit. Designed to mount to existing holes in your dash and fire-wall without drilling* or fabrication. Evaporator kit comes complete with all mounting brackets, hardware, louvers, duct hose, wiring harness, molded glove box and installation instructions.

COMPLETE KIT: All above plus condenser and drier package. Attaches to existing radiator mounting holes. No drilling* or fabrication required. Comes complete with condenser, mounting brackets, standard drier, pre-formed aluminum lines and mounting hardware.

NOTE: Some installations may require additional engine pulleys not included with kits.

You must provide v-belts and refrigerant. See page 64 for options.

TOTALLY COOL^{ed} GALLERY

The definition of a hot rod is being rewritten by professionally trained engineer/builders such as Kyle and Stacy Tucker at Detroit Speed. Their amazing projects are setting a high standard for ultimate street cars. The build quality is equal to any pro-built street rod and the performance rivals many race-only sports cars. Our Gen-IV climate control systems keep the DSE cockpits comfortable in any season or weather conditions.
