

Shown with optional TiteFit lines and clutch cover (sold separately)

**Re-engineered Vintage Air Pro Line™ Compressor/Alternator Bracket**

**Now featuring:**

- Polished 3/8" machined aluminum for ultimate appearance and durability.
- Fits all small block Chevy engines without drilling and tapping holes into heads.
- Now fits with air-gap type intake manifolds. (short pump version)
- Will work with most valve covers up to 3-3/8" tall.
- Exclusive true turnbuckle type stainless adjusters.
- Accepts one wire LT1 type alternator.
- Includes all hardware to mount compressor and alternator.

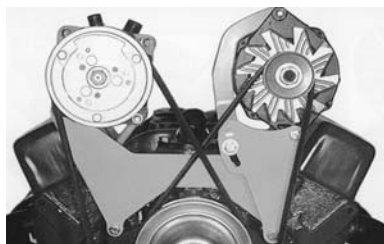

**172170-SCQ** short water pump **Non-Vortec**

**17227-VCQ** long water pump

**16500-VUQ** Replacement turnbuckle stainless steel adjuster 3/8" x 3/8" thread. Adjusts from 4 1/2" to 6 1/2"

**Long Pump or Short Pump? See Next Page**

**Top Mount Brackets Compressor/Alternator**

Mounts compressor and alternator. Fits Chevy cylinder heads without bolt holes. Bolts to water pump and intake manifold. Clears tall valve covers.

**SHORT WATER PUMP**

**15112-VCB** comp only (passenger side)

**15801-VCB** alternator only (driver side)

**15111-VCB** comp only (driver side)

**15803-VCB** alternator only (passenger side)

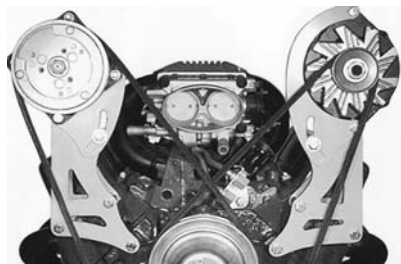

**LONG WATER PUMP**

**15122-VCB** comp only (passenger side)

**15804-VCB** alternator only (driver side)

**15121-VCB** comp only (driver side)

**15806-VCB** alternator only (passenger side)

**Tune Port Brackets Non-Vortec**

Designed to fit tuned port systems. Brackets bolt to heads and water pump. Most applications require drilling and tapping one hole in passenger side head.

**SHORT PUMP**

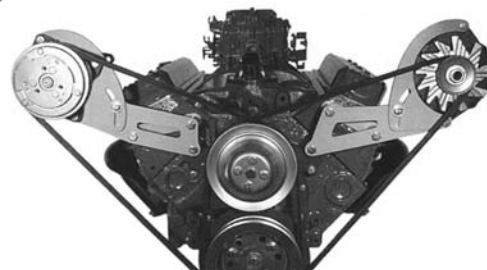

**15110-VCB** comp only (pass side)

**15802-VCB** alternator only (driver side)

**LONG PUMP**

**15120-VCB** comp only (pass side)

**15808-VCB** alternator only (driver side)

**"Vortec" Small Block Brackets**

**Side Mount** (shown above)

**15145-VCB** comp (pass side) - short pump

**15146-VCB** alternator (driver side) - short pump

**15155-VCB** comp (pass side) - long pump

**15156-VCB** alternator (driver side) - long pump

**Top Mount** (similar to top right)

**15141-VCB** comp (pass side) - short pump

**15142-VCB** alternator (driver side) - short pump

**15151-VCB** comp (pass side) - long pump

**15152-VCB** alternator (driver side) - long pump

(Note: Will not fit aluminum "Fast Burn" GM Heads)

**Extra Clearance Top Mount Brackets**

Similar To Photo Above

Mount compressor and alternator when using **tri-power or dual quad** carbs. Bolts to water pump and intake. No head bolt holes required. Clears tall valve covers. Moves compressor forward and alt. out to clear intake oil filler.

**Non-Vortec**

**SHORT PUMP**

**15109-VCB** comp only (pass side)

**15800-VCB** alternator only (driver side)

**LONG PUMP**

**15119-VCB** comp only (pass side)

**15807-VCB** alternator only (driver side)

**Side Mount Compressor/Alternator Brackets**

Mounts compressor and alternator. Designed for low hood clearance applications. Will fit Chevy cylinder heads without bolt holes. Bolts to water pump and exhaust manifold.

**SHORT WATER PUMP**

**15126-SCA** comp brkt (pass.side)

**15826-SCA** alternator brkt (driver side)

**15410-VCB** comp brkt (driver side)

**15811-VCB** alternator brkt (pass.side)

**LONG WATER PUMP**

**15311-VCB** comp only (passenger side)

**15839-VCB** alternator only (driver side)

**15123-VCB** comp only (driver side)

**FACTORY TOUR**

Our tubing and condenser shop team leader Chris Castellano (center) and his team, (L-R) Terrell Malone, Ruben M. Gomez, Jose Hernandez, and Scott Magness create our condensers and hard line kits. Vintage Air is the only air conditioning company that designs, tests, and manufactures every component of each system including our patented hard line kits.
