The All-In-One Gen-II Kit For Your Classic Chevy Truck!

EVAPORATOR KIT: Air conditioning, heating and defrost combination designed specifically for your vehicle. Original deluxe control assembly in your dash connects to and controls this unit. Designed to mount to existing holes in your dash and firewall without drilling* or fabrication. Evaporator kit comes complete with all mounting brackets, hardware, louvers, duct hose, wiring harness and installation instructions.

COMPLETE KIT: All above plus condenser and drier package. Attaches to existing radiator mounting holes. No drilling* or fabrication required. Comes complete with condenser, mounting brackets, standard drier, pre-formed aluminum lines and mounting hardware.

NOTE: Some installations may require additional engine pulleys not included with kits. You must provide pulleys, v-belts and refrigerant. See page 66 for Chevy pulleys.

Vintage Air Sure Fit system evaporators install completely inside the cab for a clean, original looking engine compartment. Firewall plate mounts to original holes.
