

SUREFIT™ SERIES - 1958-1976 Corvette

Complete Gen IV kit for 1963-67 Corvette

Complete Gen IV kit for 1968-76 Corvette

All Corvette Systems
Feature Gen IV Technology!

NOTE: '68-'72 Control panel not included!
Photo shows the Cable Converters
used to adapt YOUR panel to the system

Our exclusive Electronic Cable Converters™ easily replace your stock cables to convert your OEM control panel to the Gen-IV technology. '68-'76 Dial type controls shown.

Optional System Components

30266-CCA
1963-67 Corvette
condenser fan kit
(14" SPAL Unit)

NOTES:

1. Some installations may require additional engine pulleys not included with kits. You must provide pulleys, v-belts and refrigerant. See page 64 for Chevy pulleys.

2. We recommend using our heavy duty fan blade and shroud for best performance.

32058-VCF 1958-62 Corvette Fan Shroud

TOTALLY COOLED GALLERY

After owning this '64 Vette for over forty years Paul Wolf decided to give it a total update. RPL Customs put a Street Shop chassis under it, an LS7 and a TK0600 trans, and a set of Schott 18's and 20's for a fantastic look. The air conditioning is one of our SureFit systems, of course!
