

Vintage Air Part # 15409-VCB

A.C. COMPRESSOR MOUNT 126R

348-409 Chevy - Passenger Side
Low Profile

This bracket was designed to be used with Chevrolet double groove crank and water pump pulleys. The current G.M. part Numbers are 3744043 for the crank and 3995642 for the water pump.

When installing the mount, start all bolts and mount the compressor before tightening.

Note: Relocation of the battery may be required to use this compressor mount in some applications.

(We use a belt length of 61 1/2-62" with this mount on installations in our shop. However; this can vary with the diameter of your pulleys.)

As with any part of this nature, make sure it fits your application before painting or plating. Parts that have been painted, plated, or modified may not be returned.
